

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

SUPERFUND RED - Class USD - Superfund SICAV

(ISIN: LU0857864077) SUPERFUND RED (the 'Fund') is a Sub-Fund of Superfund SICAV (the 'Company'). Lemanik Asset Management S.A. is the Management Company (the 'Management Company') to the Fund.

Objectives and Investment Policy

- The Fund seeks to provide both medium and long-term capital growth for investors by entering into futures and forward transactions in financial instruments and commodities while not pursuing a specific objective with respect to any sector, geographic or other market sector or with respect to specific asset classes.
- The Fund is actively managed without reference to a benchmark. The Investment Manager exercises discretion in the composition of the portfolio, which is subject to this investment objective and policy.
- The Investment Manager may make trading decisions using its own fully automated computerised trading systems. The strategies used will range from short to long term and be based on different quantitative models.
- For liquidity management purposes and to hedge open futures and forward positions with futures brokers, the subfund will invest in liquid assets, including cash, money market instruments and/or UCITS.
- The Fund will invest no more than 50% of its total net assets in UCITS and no more than 20% of its total net assets in a single UCITS.
- Fund units may be sold on any business day. Further information can be found in the Prospectus.
- The Fund is not expected to pay dividends. All income generated by the investments of the Fund will be reinvested and reflected in the value of your units. However, the annual general meeting of unitholders may decide that such income is to be distributed.
- Recommendation: This Fund may not be suitable for investors who intend to withdraw their money from the Fund within five years.

Risk and Reward Profile

- The lowest category does not mean a risk free investment.
- The risk and reward profile may change over time.
- Historical data may not be a reliable indication for the future.
- This Fund is in category 5, since the share price has a quite high volatility therefore the risk of loss as well as the expected reward can be medium to high.

The following risks may not be fully captured by the risk and reward indicator:

- Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or

other instruments, may expose the Fund to financial loss.

- Currency Risk: As the Fund invests in securities denominated in a number of different currencies, movements in exchange rates may, when not hedged, cause the value of the investments to increase or decrease.
- Derivative Risk: Derivative values can rise and fall at a greater rate than equities and debt instruments. Losses can be greater than the initial investment. This risk is minimised by holding a diverse selection of non derivative investments.
- Market Risk: The Fund's assets may decrease because of sovereign acts and political transformation, which may also influence free trade of currency. In addition, risks may arise because of restricted information possibilities in addition to less stringent supervision and control of certain markets. The performance of these markets may be subject to significant volatility.
- Liquidity Risk: The Fund may invest a material part of its assets in other funds. With these funds there can be a risk of suspension of redemption and therefore their liquidity can be constrained.

A complete description of risk factors is set out in the Prospectus in the section entitled 'Risk considerations'.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual charges.

The ongoing charges figure is based on expenses for the year ending 31 December 2019.

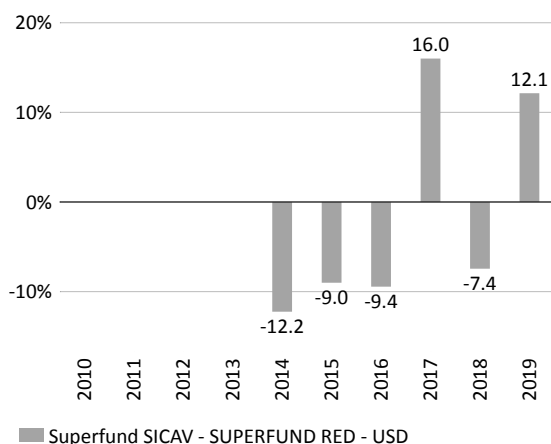

This figure may vary from year to year. It excludes:

- Performance Fees.
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another Fund.

For more information on charges, please see the 'Charges and expenses' section of the Prospectus.

Past Performance

Historic performance to 31 December 2019

One-off charges taken before or after you invest

Entry charge	4.50%
Exit charge	2.00% in the 1st year

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

Ongoing charges	6.54%
-----------------	-------

Charges taken from the Fund under certain specific conditions

Performance Fee	25% of the total increase in value once the high-watermark value in the benchmark unit class (USD class) is exceeded.
	Actual last year fee charged: 0.00%

A conversion fee of 1% of the NAV is charged for the switch. As the net asset value ("NAV", the sum of all assets valued at the mid-market price less all liabilities) is calculated on each business day, the valuation day for front-end loads, redemption fees or conversion fees is the business day on which the issue, redemption or conversion of units is to take place. The daily NAV is also used to assess the fee linked to the performance of the Fund.

Alternative investment fund management fee: 0.075% per year on the average net asset value during the relevant period and payable monthly with an annual minimum of EUR 20,000.

The chart shows the annual performance of the Fund, taking into account all costs and fees, with the exception of front-end loads and redemption fees.

Past performance is not indicative of future performance.

The unit class was launched on 11 March 2013.

Practical Information

- This key investor information applies only to this unit class. Other Share Classes are available for this Fund as described in the Fund's prospectus.
- **Depository:** The assets of the Fund are deposited with Quintet Private Bank S.A. and are kept separate from the assets of other subfunds of the Company. The assets of the Fund may not be used to settle the debts of other subfunds of the Company.
